Summary –Electronics and Communication Engineering graduate with Certified ServiceNow CSA & CAD certifications. Strong foundation in ITSM, Business Rules, Client Scripts, and Workflows, with knowledge of HTML, CSS, JavaScript, Java, and Python.

Technical Skills:

ServiceNow: ITSM (Incident, Problem Management) Business Rules, Client Scripts, UI Policies Workflows, Forms, Tables

Programming: JAVA (Basic), C (Basic), Python (Average)

Soft Skills: Problem Solving, Teamwork, Communication, Quick Learning

Tools: ServiceNow Studio, VS Code

Education:

G. Pullaiah College of Engineering and Technology, Kurnool Bachelor of Technology in Electronics and Communication Engineering (88.35%)	2022-2026
---	------------------

A.P MODEL JUNIOR COLLEGE Intermediate (MPC) (75%)	2020-2022
---	------------------

A.P MODEL SCHOOL Secondary School Certificate (SSC) (94%)	2019-2020
---	------------------

Certifications:

- ServiceNow Certified System Administrator (CSA)
- ServiceNow Certified Application Developer (CAD)
- Basics of Python – Infosys Springboard
- MATLAB Programming

Project:

- **FPGA Realization of an Operand-Aware Dual-Mode Hybrid Arithmetic Unit for 64-Bit Embedded Systems:** Description: Designed and implemented an operand-aware dual-mode arithmetic unit for 64-bit embedded systems using Verilog HDL. Integrated selective operand analysis and hybrid multiplication to reduce switching activity, achieving efficient FPGA resource utilization and improved power efficiency, validated using Xilinx Vivado 2023.2.
- **LED Distance Indicator:(Mini Project)**
Designed an IoT-based LED distance indicator using an Arduino board and ultrasonic sensor to measure and display real-time distance values. The system provides visual distance indication and is applicable in automotive safety, robotics, and industrial monitoring.

Internship:

- Engaged in a Frontend development internship, creating interactive and mobile-friendly websites using front-end technologies like HTML, CSS, and JavaScript.
 - Took part in online team collaborations, assisting with troubleshooting and refining code to boost site efficiency and usability.
